‘Women Power Democracy’ is the new programmatic focus of the League of Women Voters that will advance a stronger, more representative American democracy.

Attacks on our democracy and discriminatory barriers to voting have no place in our society, yet every day we see new attacks on the freedom to vote.

‘Women Power Democracy’ is a 4-pronged approach to tackle systemic challenges to voting rights through advocacy, litigation and organizing. These League-led programs will build more trust in our elections, grow our electorate with equity, create fairness for voter access and ensure community districting truly reflects our population.

DEMOCRACY TRUTH PROJECT
Countering mis- and disinformation and advancing better public understanding of the democratic and electoral process.

EXPAND THE FRANCHISE
Increasing voter participation through our VOTE411.org platform and voter registration, education and mobilization programs, with a focus on underrepresented populations or low-propensity voters.

DEMOCRACY DEFENSE FUND
Protecting voting rights and advancing a more equitable democracy through advocacy and voter protection efforts.

PEOPLE POWERED FAIR MAPS™
Leading with advocacy, public education and organizing to create fair, transparent, people-powered processes and eliminate partisan and racial gerrymandering in states during the 2021 redistricting process.

Together, these strategies will advance our vision for a stronger, more representative American democracy. Within each strategy, LWV will coordinate with our network of state and local Leagues, mobilize our members and activists across the country, and collaborate with partner organizations at the national and state levels.

Building on the lessons of the 2020 election cycle, the League will focus on repairing the damage to our democracy while expanding the franchise during the midterm election cycle in 2022 and the next presidential cycle in 2024.
