

Hi, I'm Stephanie with the League of Women Voters, and I'm so excited to share the new and improved vote for one ballot guy tool that allows you, voters, to learn where candidates stand on important issues. Let me show you.

For this video, we're using a fake race as an example. To view the races in your local elections head to [VOTE411.org](http://VOTE411.org) and to your address and click "view races." If you have more than one race on your ballot, you'll see them all listed.

After clicking on the race you'll find a list of your candidates. You can compare as many candidates as you like by clicking "view answers," and if you continue to scroll, you'll find their answers and links to additional info like website and social media. All this info comes directly from the candidates, and it's not edited by the League. This is a great way for candidates to speak directly to voters.

After making your selections, you can click "finish" to see your final voter guide and to make it super easy for you when you go vote. You can print or email your selections to yourself to bring with you, it's that easy. If you want to learn more about VOTE411. Stay tuned for the next video.
